

Busy as a bee

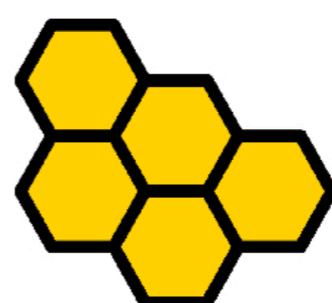

one of the
animal species
which works
the hardest

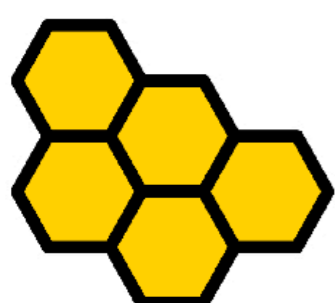

up to 60.000
bees can live
in **1** colony

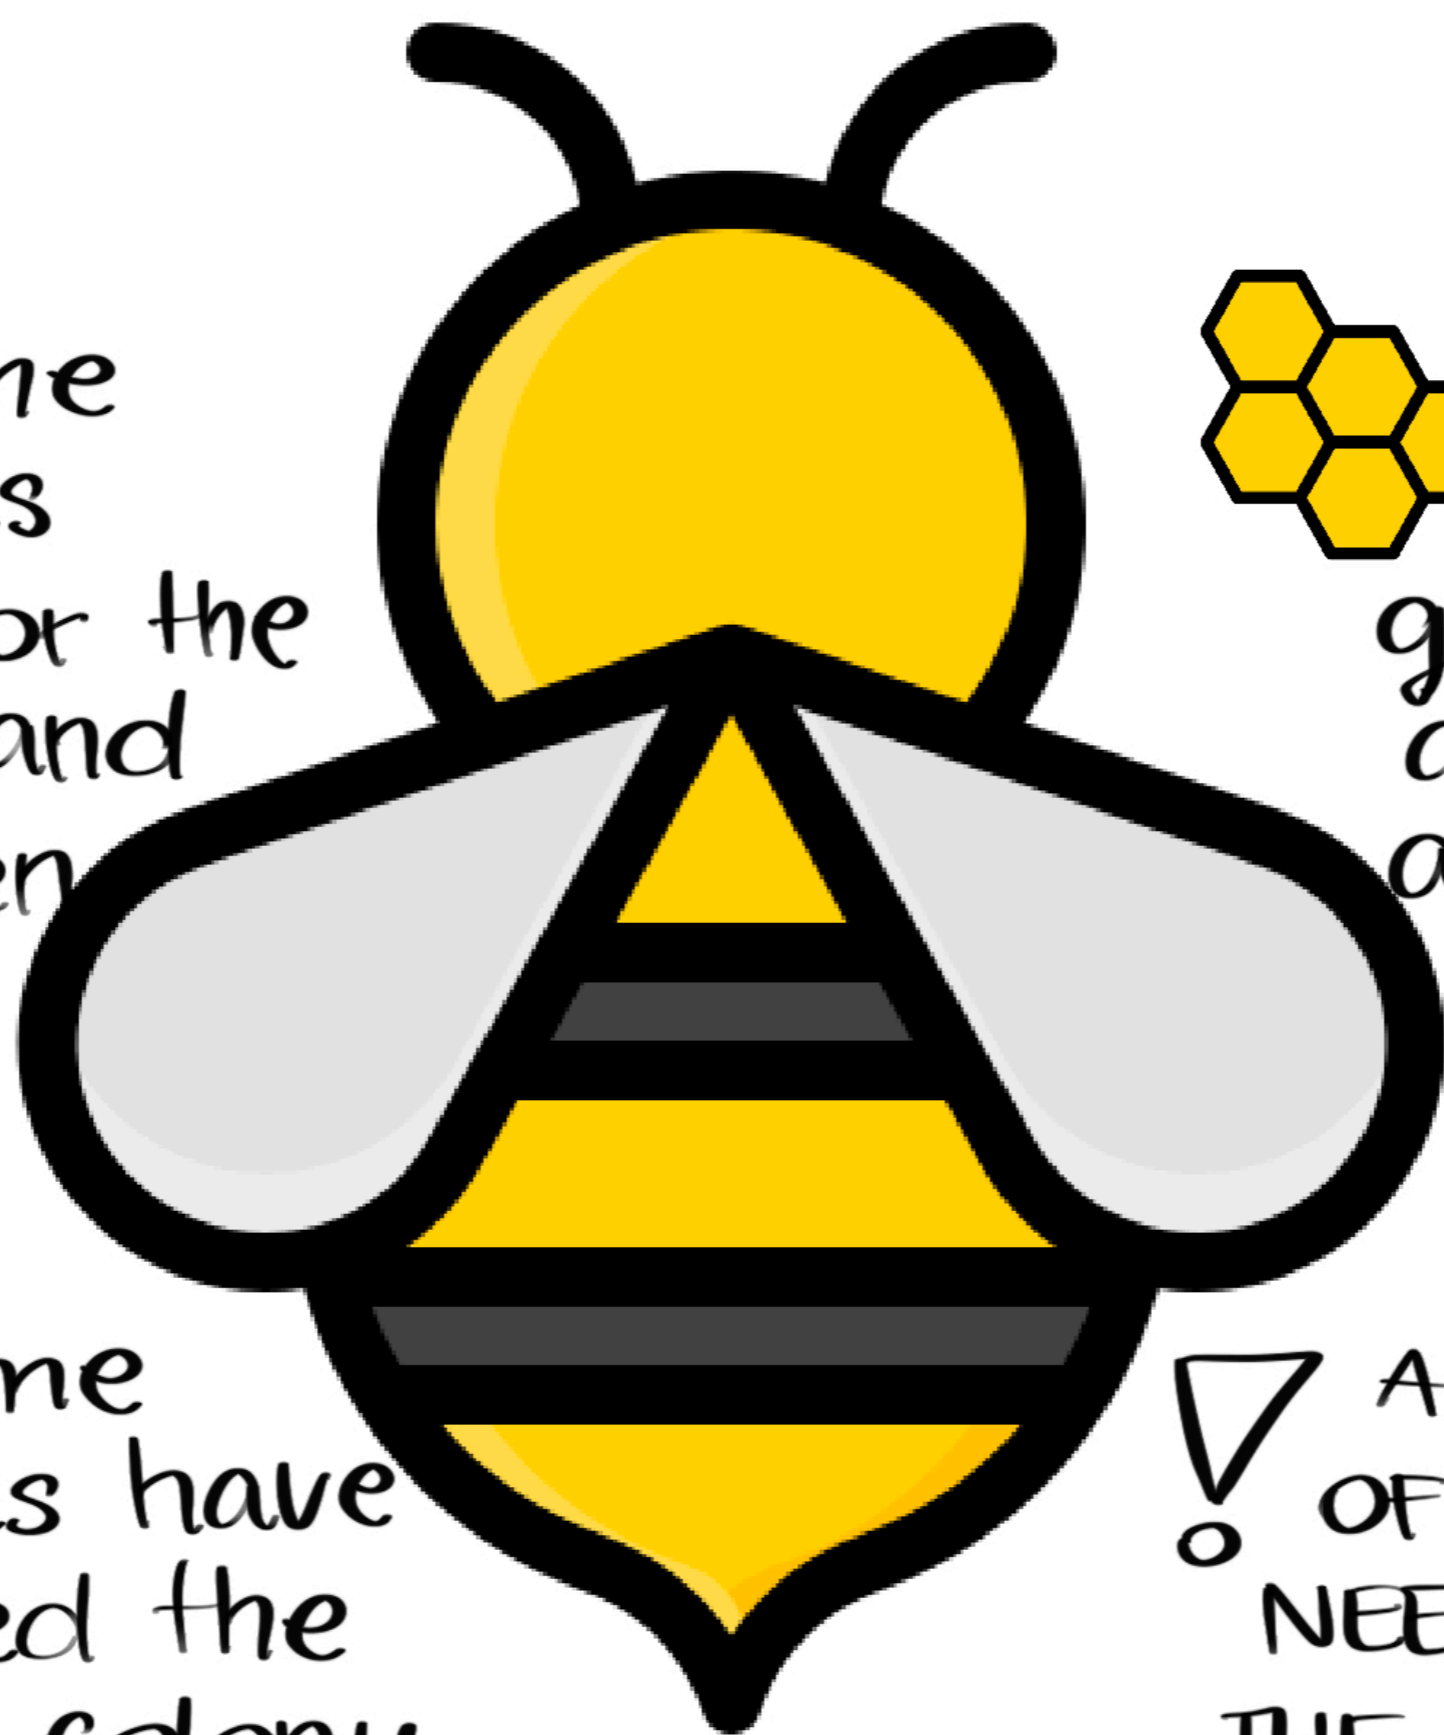

some
bees
care for the
young and
the queen

some
bees
guard the door
and some
are construction
workers

some
bees have
to feed the
whole colony

! ABOUT 25 kg
OF HONEY ARE
NEEDED FOR
THE COLONY TO
SURVIVE WINTER

ONE BEE CAN VISIT 2000 FLOWERS/DAY.

- bumblebees often nest in the ground
- the bumblebee sting is one of the most painful stings
